Breast Cancer Awareness Month

Breast Cancer Awareness Month (BCAM) (also referred to as National Breast Cancer Awareness Month (NBCAM)) is an annual International health campaign organized by major [breast cancer charities](#) every October to increase [awareness of the disease](#) and to [raise funds](#) for research into its cause, prevention, diagnosis, treatment, and cure.

The campaign also offers information and support to those affected by breast cancer. As well as providing a platform for breast cancer charities to raise awareness of their work and of the disease, BCAM is also a prime opportunity to remind women to be breast aware for earlier detection.
